Reflection: Ecological Commitment: Only by cultivating sound virtues will people be able to make a selfless ecological commitment ... There is a nobility in the duty to care for creation through little daily actions...avoiding the use of plastic and paper, reducing water consumption, separating refuse...or any number of other practices...Reusing something instead of immediately discarding it, when done for the right reasons, can be an act of love which expresses our own dignity.

- Pope Francis, Laudato Si' art.211.
